MVP Sample Activity

Here is a sample MVP lesson for data visualization reimagining. You may develop your own lessons based on our lesson. Please contact us if you would like more lesson plans.

EXPLORE

1. Introduce a data visualization using.
   a. With handout 1:
      i. What do you notice about the data visualization? What do you wonder?
   b. Discuss in small groups.

2. Share more information with handout 2.
   - Prompt Questions
     a. What new information is here?
     b. How are the handouts connected?
   - Example prompts for small group discussions:
     a. Be sure to surface connections between the handouts: Nairobi is in Kenya. And within Kenya there are neighborhoods.
     b. The line chart is a survey that happened within one of the neighborhoods.
     c. The color of the rope was based on the gender identity they felt most comfortable with (yellow, blue, green).
     d. Take time to add to your individual inspiration journal.
